

ATMOS COMPRESSOR PDH 76

AIR COMPRESSOR

The ATMOS Compressor PDH 76 is a versatile, high-powered compressor designed for demanding telecom and industrial applications. Built for efficiency and reliability, it delivers a steady supply of compressed air, making it ideal for tasks such as fibre optic cable blowing and other high-pressure requirements. With its durable construction and user-friendly controls, the PDH 76 ensures smooth operation even in challenging environments. This compressor is engineered to maximise productivity while minimising downtime, offering a dependable air supply for a wide range of field operations.

FEATURES & BENEFITS

- Central lifting eye
- 50 mm ball hitch and various sizes towing axles available
- Fixed or adjustable height braked undercarriage, SKID
- Corrosion-resistant body protected by powder baked enamel coated on cathophoretic treated sheet
- The fuel tank provides necessary amount of fuel for full shift without in-interruption

TECHNICAL SPECIFICATION

Rated Pressue (bar)	7/10/12/14
Rated Pressure (psi)	102/150/200
Air Flow (cfm)	268/230/208/195
Fuel Type	Diesel
Engine Rated Power (kW)	54.5
Free Air Delivery	7,6 / 6,5 / 5,9 / 5,5 [m3/min]
Engine Motor	Hatz 4H50 TICD
Engine Rated Speed (RPM)	2300

AVAILABLE OPTIONS

- Aftercooler with water trap
- Microfilters
- Heat exchanger
- Condensate evaporator
- Winter packet
- Battery main switch
- Spark arrestor
- Engine overspeed shutdown valve
