

CABLES TIES PA6.6 TED®

TED®

White

Black

Cable ties are widely used in both telecom & industrial sectors. They are used to group cables together for pathways, and to attach certain types of marking labels. Also used to secure cables through plug support for pole, manholes or wall application. Pertinent in all branch of the telecom networks (fixe & mobile, datacenters, LAN).

BENEFITS

- Easy to use & to install
- Multiple usage for cable installation
- Suitable for both outdoor & indoor application
- Wide range available

CARACTÉRISTIQUES TECHNIQUES

Color	Black or White
Materials	PA 6.6
UV resistance	Compliant with UL62275
Flame rated	Compliant with UL94V-2
Max T° in operation	85°
Usefull life	5-10*
Degree of exposure	No shield or shade, southern exposure, higher altitudes and high temperatures decrease the life of cable ties
Moisture	Dry environments cause nylon 6.6 ties to become more brittle. High humidity plus high temperatures can result in degradation due to hydrolysis in nylon
Chemicals	Applications which have chemicals present can reduce the life. This is the most detrimental factor to the life of a tie.

*This is the estimated useful life, but does not guarantee that this is the useful life for a given application.

INSTALLATION TIP

For an easier & cleaner installation, use a cable tie plier to cut off any excess length.

PN	DESCRIPTION
1860	Cable tie plier & cutter - TED®

PN	DESCRIPTION	COLOR	PACKAGING	TENSILE STRENGHT/KG
0493	White cable tie PA6.6 TED® - 100x2,5mm	White	Bag of 100pcs	8
0494	White cable tie PA6.6 TED® - 150x3,6mm	White	Bag of 100pcs	18
