

FLOODLIGHTS TED®

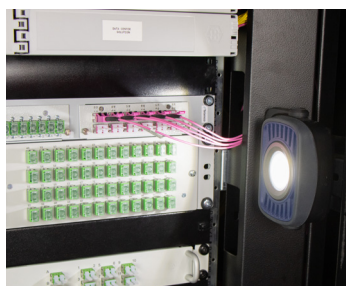

TED®

This TED® brand projector will be the ideal companion for technicians who are always on the move and in need of an additional light source. It provides powerful and continuous brightness even in locations without electrical outlets, with a maximum autonomy of 17 hours.

The dual magnetic mounting system allows the projector to be positioned on a tripod for close-up and area lighting. It is also equipped with a powerful and adjustable LED, controlled by a switch with 4 lighting modes: 1500lm-900lm-600lm-300lm.

The projector's 5V 2Ah battery is integrated and features a Power Bank function to recharge devices such as smartphones via a USB port. The battery also has 5 charge indicators: 100%-75%-50%-20%.
