

# LOV350

## COILING BRACKET

The LOV350 Coiling Bracket is a durable and lightweight solution designed for use in telecommunications. Made from high-quality aluminium, this coiling bracket is ideal for securing and neatly storing cables on telecommunication poles. Its robust construction ensures longevity in outdoor conditions, while its simple design allows for quick and easy installation. The LOV350 bracket is essential for maintaining cable organisation, reducing clutter, and ensuring that network infrastructure remains safe and efficient.

CODE	DESCRIPTION	WEIGHT	UNIT
09126	LOV350: COILING BRACKET	1.60kg	5

Weight: 1.60kg

## FEATURES & BENEFITS

- Easy installation
- Manufactured from durable aluminium
- Perfect for small capacity distribution cables under 144F
- Suitable for wooden and composite poles

## TECHNICAL SPECIFICATION

Coiling dimensions	568 x 358mm
Weight	1.60kg
Material	Aluminium
