

RGA3

FALL ARREST BLOCK - 15M

The RGA3 is a robust fall arrest block with a long working length and heavier construction. The RGA3 has been used successfully by the offshore industry for many years.

The carrying handle of the RGA3 is part of the cast alloy housing and can be connected to the anchorage point using soft slings or a connector. The RGA3 is suitable for use in most industries to provide protection in work areas with overhead anchorage points. The RGA3 is supplied with galvanised wire cable.

Accredited to: EN 360:2002

Line material: 5mm galvanised wire cable

Case material: Alloy

Connector: Double action high tensile steel swivel karabiner

Weight: 10.5kg

Max user weight: 140kg

Max force: <6kN

Built in fall indicator
