HIGH VISIBILITY GLOW-IN-THE-DARK RESCUE HARNESS

RG5 SUPERGLOW

An unique confined space harness featuring phosphorescent and reflective yarns that provide extra visibility in low-light conditions. Phosphorescent webbing takes in light energy and will glow for several hours afterwards.

The chest and leg straps comprise of quick release buckles for simplicity of donning. The rescue strap can be used for lifting and lowering, and also be used in certain fall arrest situations.

The addition of a flexible rear D pad provides additional comfort. The inclusion of easy slide shoulder buckles increases the speed and range of adjustment. Tail tidies allow for convenient and neat storage of excess webbing following adjustment.

The way the harness has been designed minimises the amount of rigid webbing edges.

- / Front & rear attachment points
- / Rescue attachment point with hook and loop fastening
- / Glow-in-the-dark capabilities

EN 361:2002

EN 1497:2007

Web material:	45mm high visibility RIDGE Protect polyester* with phosphorescent & reflective yarn
