RTLK1

KINETIC® TOOL LANYARD WITH CHOKE LOOP

The RTLK1 is a Kinetic® twin tool lanyard with a choke loop for tool attachment. It is suitable for tools up to 10kg in weight.

Kinetic® is our unique webbing specially designed and developed to reduce the potentially devastating shock involved in the event of a fall. It was originally developed for our fall arrest lanyards but the principle is exactly the same and equally important in the event of a falling tool.

A Kinetic® tool lanyard significantly reduces the risk of a dropped tool dragging the user off a platform and, because the deployed distance is less than the shock pack tool lanyard, it can reduce the risk below, too.

Web material: 25mm water repellent polyester

Length: 1.25m

Webbing strength: >1000kg

Tool attachment: 210mm choke loop

Kinetic® webbing

Choke loop
