

# RGK3

## 24MM STEEL TWISTLOCK KARABINER RGK3

This heavyweight karabiner is primarily fitted to the ends of fall arrest lanyards and horizontal temporary anchor lines, due to its high minimum breaking strength.

The twistlock closure makes this karabiner very safe to use, as it locks automatically when it is clipped into an anchorage point. The RGK3 is similar to the RGK2 except it is stronger and has a larger gate opening. The gate is extra strong as required by ANSI standards.

EN 362:2004

ANSI Z359.12

Material:	Steel
Plating:	Zinc
Gate opening:	24mm
External length:	119mm
Closure type:	Twistlock
MBS:	50kN
Weight:	300g

## FEATURES

Twistlock closure
