

# STEP POLE NO.1

## POLE STEP 4MM

The Step Pole No.1 - 4mm is a durable and reliable step designed for use on wooden poles. Crafted with a material thickness of 4mm, this step ensures stability and safety for various climbing and maintenance activities. For those requiring additional strength, a 6mm thickness option is available upon request.

Ideal for utility workers and technicians, the Step Pole No.1 - 4mm provides secure footing and easy installation, making it an essential component in pole maintenance and access. Installed with a Coach Screw.
